

MARHATTER

KIDS COLLECTION

Autumn-Winter 2021-2022

30% wool 70% acrylic

The most popular mixed yarn consists of merino wool and acrylic, characterized by elasticity, wear resistance and excellent heat shielding properties, excellent for making hats and scarves for your kids

30% wool 70% acrylic

Mixes from basic half wool yarn developed by our designers and technologists. Unusual color combinations and interesting texture give unique appearance to the products

**12% mohair 16% wool
60% acrylic 12% nylon**

Yarn with Italian mohair, voluminous, soft and warm. Due to the used raw materials and special processing mohair does not prick and keep warm even in strong frost

Particularity of the compositions of the used yarns:

Warming type

Country of origin of the yarn:

Environmental friendliness

The Global Recycled Standard is an international, voluntary, full product standard that sets requirements for third-party certification of

- Identification and traceability of the recycled content in textile along the entire chain of custody
- Environmental requirements
- Social responsibilities according to the ILO conventions
- Define and uphold restrictions in the use of chemicals

Recycling Declaration Standard (RSC).
RCS is designed to confirm the presence and quantity of recyclable materials in the final product. Also, the sign is used for correct and honest communication with consumers.

Technology

THERMOCOOL is a yarn with intelligent fiber cross-section, it provides cooling evaporation or thermal barrier in accordance with the needs of the user. Yarn is a unique blend of fibers with a hollow core and directional fibers that provide significantly more thermoregulation compared to conventional yarns.
